Partner – Middle East Operations

Studio Righini Consulting, Saudi Arabia

Internal Consultant

- Innovation executive advisor at **Construction Products Holding Company (CPC)**: Directed research and development initiatives for innovative and sustainable technologies.
- Digital business transformation program leader at **Saudi Binladin Group (SBG)**: Designed and orchestrated 5D project control systems, introducing design thinking and agile methodologies, achieving cost reductions and improved efficiency.
- Digital business transformation executive consultant at **IBS, Nesma Group**: Introduced ERP and MIS solutions to optimize business operations and reduce costs, while overseeing digital transformation programs focused on organizational efficiency.
- Organizational development executive consultant at **Modern Pioneer Company**: Led organizational improvement programs, fostering company-wide change readiness.
- Founder of **Construct360**: A digital transformation initiative aimed at integrating teams, processes, and data in the construction sector, enhancing cross-functional collaboration and accelerating project delivery.

Roles/Responsibilities

- Collaborated with companies to define and oversee tailored digital strategies, optimizing operational efficiency and improving decision-making processes.
- Assisted organizations in adopting advanced ERP and CRM systems to enhance contract management, marketing, and sales processes.
- Designed and implemented integrated information systems (CICM) to manage the entire project contract lifecycle, ensuring strategic alignment across teams and processes.
- Facilitated the introduction of agile management frameworks, improving team collaboration and accelerating delivery cycles.
- Developed integrated data management systems, creating scalable Cloud-based platforms to enhance process sustainability.
- Supported resource optimization using 4D and 5D technologies and real-time data, improving decision-making precision and operational efficiency.
- Promoted corporate cultural transformation to drive the adoption of innovative technologies and sustainable practices.
- Conducted advanced studies to develop an off-site volumetric composite construction system, creating a detailed roadmap for production planning and optimization.
- Designed and coordinated the implementation of an integrated data framework to align project cost and schedule processes, ensuring governance over contract deliverables.
- Facilitated the integration of material management systems, improving real-time visibility across business units.
- Participated in strategic planning committees, supporting developing and implementing growth and digital transformation plans.

Current Responsibilities

Within the firm, I am responsible for the “Digital Advisory” Department, focusing on digital transformation and innovation consulting. Promotes and coordinates tailored digital transformation initiatives to optimize operations, improve data-driven decision-making, and foster innovation. With extensive experience in executive transformation consulting, blends traditional methods with modern digital strategies to empower clients and strengthen their market position.
